..Dr. Venkat Kanumalla, Flushing, New York.

Any person having the following qualities is to be considered as progressing well in his pursuit of realising the Supreme Lord Narayana.

The best quality is fearlessness to speak out the truth whether someone likes it or not. Next is purification of one's existence by constantly chanting the great names of the Lord as "Om, Namo Narayana". Then acquire knowledge of the Lord by continuous reading of the scripture that deals with the greatness of the Lord, like Bhagavadgita and Srīmad Bhagavatam. Try to give as much as possible to charity; not expecting anything in return (name, fame etc. and that charity should be to the most deserving; One should never give to unscrupulous and unethical persons or causes. Try to obtain self control by resorting to perfect control over your senses so that you are the master of your sense organs, and never a slave to them.

Next develop austerity by observing fasts on the most important day, like Ekadasi (11th day after every full/new moon). Cultivate simplicity by living a simple life, eating a simple meal, living in a simple house, and in every dealing and day-to-day activity. Be non-violent by practising it in your speech and actions as words can hurt others as much or more, as our actions. The first step in this regard is to avoid all sorts of killing and encouraging killing killing by meat-eating, hunting and other forbidden activities. Be truthful, not only to others, but also to yourself. Other qualities are: freedom from anger (even if there is provocation), renunciation (from all worldly possessions and acquisitions), tranquility (not rejoicing when your tide is high and bemoaning when low), aversion to fault-finding (when we point one finger at others to show their fault, we should remember that three fingers are actually pointing at ourselves), compassion to all living creatures, gentleness in speech and actions, steady determination that Lord Narayana alone (or His incarnations like Rama, Krishna, Narasimha etc.) can give us liberation from the cycle of birth and death; forgiveness (even if he be our worst enemy), cleanliness (not only of the body, but of the mind too); freedom from envy and the passion for honor. All the above qualities will lead a person towards the Supreme Lord Narayana as they are all transcendental and divine.

The demonic qualities are arrogance, pride, anger, conceit, harshness and ignorance. Other aspects of demonic behaviour are to gratify the senses into the end of one's life, to thin, "so much wealth, I have by now, I will gain much more by some of my schemes". "He is my enemy, I subdued that enemy and the other enemies I am going to vanquish." "I am the Lord of everything. I am the greatest. I can enjoy in anyway I like. There is none equal to me or more powerful. I can do everything and anything I want". All these are demonic. Self-complacent and dull witted, the demonic person is sure to fall down into the worst hell in due course of time. WE ALL HAVE A MIXTURE OF

DEMONIC AND DIVINE QUALITIES. AN INTELLIGENT PERSON INTERESTED IN REALISING THE SUPREME LORD NARAYANA WILL CONSTANTLY TRY TO PURGE HIMSELF OF THE DEMONIC NATURE AND TO ENHANCE HIS DIVINE NATURE.

CALCULATION OF THE DAY, FOR ANY DATE AND IN ANY YEAR AND ANY CENTURY.

MR. P.V. RAMA RAO

Vizag, India.

The procedure is as follows. To make an easier explanation, the examples of dates given may be studied.

DATE; 29-4-1925 OR 25 APRIL 1925

To find out the day for the above date, add the following:

- 1. Date as is = 29
- 2. For April month add 6 = 6
- 3. For 20th century in which the date is = 1
- 4. Add last 2 digits of the year as it is = 25
- 5. Add finally the number of times 4 will go in last two digits of the year $25/4 = 6$

Add total items 1 through 5

$$\frac{= 67}{\text{Divide the total sum of 67 by 7 and find the remainder: } 67/7 \text{ Remainder } 4 = 4}$$

Follow the sequence of days from Sunday through Saturday as 1,2,3,4,5,6,0 respectively for the remainders we get. SO IN THIS INSTANT CASE OF REMAINDER 4, THE DAY IS RECKONED AS WEDNESDAY.

Remarks:

Out of the 5 items to be added, three items are within the date itself. Only unknown quantities are the number to be added against each of the 12 months and also the number to be added for each century. The following tables give those numbers:

For Month: January 0, February 3, March 3, April 6, May 1, June 4, July 6, August 2, September 5, October 0, November 3, December 5.

For Year: 1 - 6; 8 - 6; 15 - 6

2 - 5; 9 - 5; 16 - 5
3 - 4; 10 - 4; 17 - 4
4 - 3; 11 - 3; 18 - 3
5 - 2; 12 - 2; 19 - 2
6 - 1; 13 - 1; 20 - 1
7 - 0; 14 - 0; 21 - 0

and so on, the same cycle repeats for every 7 centuries.

Special Note:

While calculating the day in each leap year, for the first 2 months, January and February, deduct 1 from the total of 5 items and then calculate. For the rest of the months in the leap year no such deduction is necessary.

Example in the Leap Year:
Date 25th February 1972.

- 1. Date: 25, 2. February 3, 3. 20th century 1, 4. Last two digits in the year 72, 5. Last two digits in the year divided by 4 18 Add for the total 119; subtract 1 = 118, divide this by 7 and the remainder is 6: So the day is FRIDAY.

In the current massive TAX Reforms the only remaining Tax Shelter to many is 401(K). For employers, the 401(K) offers a highly visible and cost-efficient retirement benefits--in the case of smaller firms, sometimes their only one. With a 401(K), employers can leverage their contribution dollars by using them to induce employees to save for their own retirement, relieving pressure for more expensive benefits from company-payall plans. For employees, 401(K) offers an opportunity to tailor a tax-deferred capital accumulation program to their own financial and retirement needs, with contribution limits that will remain far more generous than alternative arrangements such as Individual Retirement Accounts.

A 401(K) plan is primarily a profit-sharing plan in which employers can vary the amount of their contributions based on the company's profitability. The plan can replace or be added to an existing defined contribution or defined benefit plan. For example, if a company has a profit-sharing program in place, it can be amended to add the special features of a 401(K) without an employer match. This supplement enables the employer to offer employees the benefits of 401(K) plans inexpensively.

The plan establishes an individual account for each employee which holds his or her contribution, the employer's contribution, and interest accrued or gains realized through the investments. Employees typically are given the opportunity to self-direct the account, making choices often include guaranteed funds, mutual funds, life insurance or annuity products.

By including life insurance in the plan, a company can improve the participation of lower-paid employees significantly. This is because a 401(K) plan enables employees to purchase life insurance with tax-deductible dollars--a benefit appreciated by all who currently own or need life insurance protection.

Employers may want to consider combining a 401(K) with their profit-sharing plan to capture the following powerful tax advantages which should not be affected by proposed tax reform measures:

- All amounts contributed to the plans are deductible by the employer within general profit-sharing limits.
- Under salary reduction plans, employees reduce their gross taxable income by the amount they contribute to the plan.
- Employees pay no current federal income tax on the amount of employer contributions allocated to their account.
- All investment earnings on amounts contributed to the plan compound tax free until distributed to the participant.
- When the account balance is distributed after age 59 1/2, many employees will be in a lower tax bracket and may have favorable five-year averaging available to them.

Additionally, 401(K) plans may have loan provisions identical to those of any other qualified plans, creating an attractive opportunity for employees to pay themselves interest which then will accrue on a tax-deferred basis. Often, a loan may be a better method for employees to get their money than through making a hardship withdrawal.

Let's Be Stealing!!!
NEW SICK LEAVE POLICY
SICKNESS: No excuse. We will no longer accept your doctor's statement as proof, as we believe that if you are able to get to the doctor, you are able to come to work.
LEAVE OF ABSENCE (FOR AN OPERATION): We are no longer allowing this practice. We wish to discourage any thought that you may have about needing an operation. We believe that as long as you are employed here, you will need all of whatever you have and should not consider having anything removed. We hired you as you are and to have anything removed would certainly make you less than we bargained for.
Too much time is being spent in the Rest Room in alphabetical order. For instance, those whose names begin with 'A' will go from 8 a.m. to 8:05 a.m., 'B' will go from 8:05 to 8:10 a.m. and so on. If you are unable to go at your time, it will be necessary to wait until the day when your turn comes again.
DEATH (OTHER THAN YOUR OWN): This is no excuse. There is nothing you can do for them, and we are sure that someone else in a lesser position can attend to the funeral arrangements. However, if the funeral can be held in late afternoon, we will be glad to let you off one hour early, provided that your share of work is ahead enough to keep the job going in your absence.
DEATH (YOUR OWN): This will be accepted as an excuse, but we would like a two-week notice, as we feel it is your duty to teach someone else your job.

A : Simple; take a 4' cube like box and the spear will fit it diagonally. The available diagonal length will be the root of totals of each side of the cube (which in this case is : square root of 4²+4²+4² which will be about 7 1/2).
