I would like to congratulate you, for managing the whole event wonderfully. I know it is very difficult to coordinate with all the parties and bring them together. All the programs were very good and the artist selection was great who came from India and entertained us. I also

enjoyed the food that was very good. All the players in your team did a wonderful job. -

I am writing this note express sincere appreciation for the successful conclusion of the 25th anniversary. The facilities were good and the food was excellent. For the number of people that attended (without any prior notice) all the facilities were adequate and the food lines moved reasonably well. The cultural events (to the extent that I could attend) were excellent. I enjoyed the Andhra Vibhavam - opening dance. A lot of hard work and personal sacrifice went into making this success happen. I want to convey my sincere thanks and appreciation to all concerned. It was my privilege to work with Ravi and all the panelists on the business seminar. I thought it attracted a reasonable number of participants and the discussions were lively. It was an unexpected pleasure that Gov. Corzine could join the session and make some remarks. Please convey my sincere appreciation to the committee members for their hard work too.
